Preface to "Selected Papers from 43rd International Conference of Theoretical Physics"

This Special Issue consists of 7 papers based on talks given at the 43rd International Conference of Theoretical Physics: Matter to the Deepest, Recent Developments in Physics Of Fundamental Interactions. The conference took place in Chorzów in an Upper Silesia region of Poland from the 1st to the 6th of September 2019.

Conference web page with Indico materials from all talks can be found at the following link: <http://indico.if.us.edu.pl/event/5/overview>.

We thank the speakers for their effort in preparing talks interesting to all audiences. Especially we are grateful to those who found time to prepare their contributions for publishing in this Special Issue.

We highly appreciate the efficient collaboration with the *Symmetry* Editorial team in producing this Special Issue of proceedings.
